FLARE

Internship FAQ

What do our interns do?

Every semester, the Features department at FLARE take on interns who become an integral part of our team over the course of their four months with us. They assist with research and interview transcriptions, pitch their own daily reactive news stories, and are given interviewing and writing assignments. Every day is different in our fast-paced environment!

Is the FLARE internship a full-time internship?

It depends! We hire some full-time positions and some part-time (min. 2-3 days a week) depending on your availability.

What kind of skills do I need to apply?

The most important things are enthusiasm, passion for all things entertainment, politics and pop culture and a genuine interest in writing! We can teach you most of the things you'll be doing with us here at FLARE, so as long as I know you're excited to be contributing to our brand, you're organized, you're willing to learn, and you're obsessed with staying on top of news and culture, we'll be more than happy to work with you.

For more great info on applying and interviewing, read the story at this link:
