

Exploration Production Inc. Internship

Are you looking for a mighty place to intern? Well we want YOU to join our team! Exploration Production Inc. is a multi-award winning producer of ambitious, original, entertaining factual documentaries and series for both Discovery Channel and other international broadcasters. EPI is looking for current students completing a media or television and film program requiring credit to do a 3 month unpaid internship where they will participate in the production of Mighty Ships, Mighty Trains and a brand new show for Discovery Channel. Interns will learn about production coordinating, research and development, and production management in a fast paced environment. Each intern will get a taste of what it's like organizing shows that film around the globe, and also what it takes to broadcast them internationally.

EPI is a great opportunity for interns to learn, create and package unique television with an exceptional team every day at Discovery Canada's Toronto studios, for an international audience. Your possibilities will only be limited by your commitment and determination to benefit from the internship. Our expectations are high, but for interns who show dedication, creativity and an enthusiasm to learn, the possibilities are endless!

What you'll be doing:

- Research and development for upcoming shoots
- Supporting Production Coordinators in organizing and booking international shoots
- Assisting with the various deliverables required for international broadcasters
- Supporting the team in the day to day tasks of broadcasting international shows

What we're looking for
